Interests: AI, Data Manipulation, Data visualization, Reading, Creative Writing, researching on current trends in IT and Watching documentary.

CAREER OBJECTIVE

A highly motivated and data-driven Information Technology undergraduate seeking an attachment position to gain hands-on experience in data science and analytics. With over a year of practical experience building machine learning models, analyzing real-world datasets, and creating interactive dashboards using Python, SQL, and Tableau, I'm eager to apply my skills in a dynamic, data-centric environment. Passionate about uncovering insights that drive decisions, i aim to grow into a data scientist/ analytics who not only crunches numbers but also tells compelling stories with data.
